Non-Selective Herbicide #1
Safety Data Sheet

SECTION 1: Product and company identification

Trade name : Non-Selective Herbicide #1
Use of the substance/mixture : Herbicide
Industrial use
Product code : 0315
Company : Athea Laboratories, Inc.
P.O. Box 240014
Milwaukee, WI 53224 - USA
T (414) 354-6417
Emergency number : Chemtrec: (800) 424-9300

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

GHS-US classification
Flam. Liq. 4 H227
Acute Tox. 4 (Dermal) H312
Acute Tox. 4 (Inhalation:dust,mist) H332
Skin Irrit. 2 H315
Eye Irrit. 2 H319
Carc. 1B H350
STOT SE 3 H336
STOT RE 2 H373
Asp. Tox. 1 H304

2.2. Label elements

GHS-US labeling
Hazard pictograms (GHS-US) :
Signal word (GHS-US) : Danger
Hazard statements (GHS-US)
- Combustible liquid
- May be fatal if swallowed and enters airways
- Harmful in contact with skin or if inhaled
- Causes skin irritation
- Causes serious eye irritation
- May cause drowsiness or dizziness
- May cause cancer
- May cause damage to organs (liver, thymus, bone marrow) through prolonged or repeated exposure

Precautionary statements (GHS-US)
- Obtain special instructions before use
- Do not handle until all safety precautions have been read and understood
- Keep away from open flames, sparks, heat.- No smoking
- Do not breathe mist, spray, vapors
- Avoid breathing mist, spray, vapors
- Wash thoroughly after handling
- Use only outdoors or in a well-ventilated area
- Wear protective clothing, eye protection, protective gloves
- If swallowed: Immediately call a POISON CENTER, a doctor
- If on skin: Wash with plenty of water
- If inhaled: Remove person to fresh air and keep comfortable for breathing
- If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
- If exposed or concerned: Get medical advice/attention
- Call a doctor, a POISON CENTER if you feel unwell
- Get medical advice/attention if you feel unwell
- Specific treatment (see First aid measures on this label)
- Specific treatment (see First aid measures on this label)
- Do NOT induce vomiting
- If skin irritation occurs: Get medical advice/attention
- If eye irritation persists: Get medical advice/attention
- Take off contaminated clothing and wash it before reuse
- In case of fire: Use water, dry extinguishing powder, carbon dioxide (CO2), alcohol resistant foam to extinguish
- Store in a well-ventilated place. Keep container tightly closed
Non-Selective Herbicide #1
Safety Data Sheet

2.3. Other hazards
No additional information available

2.4. Unknown acute toxicity (GHS US)
Not applicable

SECTION 3: Composition/Information on ingredients

3.1. Substances
Not applicable

A specific chemical identity and/or percentage of composition has been withheld as a trade secret. Any concentration shown as a range is to protect confidentiality or is due to batch variation.

SECTION 4: First aid measures

4.1. Description of first aid measures
First-aid measures general:
If you feel unwell, seek medical advice (show the label where possible). IF exposed or concerned:
Get medical advice/attention.

First-aid measures after inhalation:
If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

First-aid measures after skin contact:
Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse. Wash contaminated clothing before reuse. If skin irritation or rash occurs: Get medical advice/attention.

First-aid measures after eye contact:
Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

First-aid measures after ingestion:
Do NOT induce vomiting. Immediately call a poison center or doctor/physician.

4.2. Most important symptoms and effects, both acute and delayed
Symptoms/effects:
If you feel unwell, seek medical advice. May cause cancer. May be fatal if swallowed and enters airways. Harmful if inhaled. Harmful in contact with skin. Causes skin irritation. Causes serious eye irritation. May cause drowsiness or dizziness. May cause damage to organs (liver, thymus, bone marrow) through prolonged or repeated exposure.

Symptoms/effects after inhalation:
Harmful if inhaled. May cause drowsiness or dizziness.

Symptoms/effects after skin contact:
Causes skin irritation.

Symptoms/effects after eye contact:
Causes serious eye irritation.

Symptoms/effects after ingestion:
May be fatal if swallowed and enters airways.

4.3. Indication of any immediate medical attention and special treatment needed
No additional information available

SECTION 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media:
Dry chemical powder. Carbon dioxide. Alcohol-resistant foam.

Unsuitable extinguishing media:
Solid water jet ineffective as extinguishing medium.
5.2. Special hazards arising from the substance or mixture

Fire hazard: Combustible liquid.
Explosion hazard: Explosion risk in case of fire. Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries. May be ignited by sparks. May form flammable/explosive vapor-air mixture.
Reactivity: On burning: release of toxic and corrosive gases/vapors (nitrous vapors, sulphur oxides, carbon monoxide - carbon dioxide). If the product is involved in a fire, it can release toxic chlorine gases. Reacts violently with (strong) oxidizers.

5.3. Advice for firefighters

Firefighting instructions: Exercise caution when fighting any chemical fire. In case of fire: Evacuate area. Fight fire remotely due to the risk of explosion. Use water spray or fog for cooling exposed containers. Take account of environmentally hazardous firefighting water.

Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Remove ignition sources. Use special care to avoid static electric charges.
6.1.1. For non-emergency personnel

Emergency procedures: Evacuate unnecessary personnel. No naked flames or sparks.
6.1.2. For emergency responders

Protective equipment: Equip cleanup crew with proper protection.
Emergency procedures: Stop leak if safe to do so. Stop release. Ventilate area.

6.2. Environmental precautions

Avoid release to the environment. Prevent entry to sewers and public waters.

6.3. Methods and material for containment and cleaning up

For containment: Contain released substance, pump into suitable containers.
Methods for cleaning up: This material and its container must be disposed of in a safe way, and as per local legislation. Take up liquid spill into inert absorbent material, e.g.: sand/earth. Clean contaminated surfaces with a soap solution.

6.4. Reference to other sections

No additional information available

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Additional hazards when processed: Handle empty containers with care because residual vapors are flammable. In use, may form flammable vapor-air mixture. Keep away from open flame, sparks, excessive heat. - No smoking.
Precautions for safe handling: Comply with the legal requirements. Do not handle until all safety precautions have been read and understood. Do not breathe vapors. Use personal protective equipment as required. Do not eat, drink or smoke when using this product. Do not get in eyes, on skin, or on clothing. Handle and open the container with care. Keep away from sources of ignition - No smoking. Take precautions against electrostatic charges. Obtain special instructions before use. Remove contaminated clothing immediately.
Hygiene measures: Wash thoroughly after handling. Wash contaminated clothing before reuse.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures: Comply with applicable regulations. Proper grounding procedures to avoid static electricity should be followed.
Storage conditions: Keep container tightly closed. Keep only in the original container in a cool, well ventilated place away from: sparks, open flames, excessive heat.
Incompatible products: Oxidizing agent.
Incompatible materials: Sources of ignition.
Heat-ignition: KEEP SUBSTANCE AWAY FROM: ignition sources. heat sources.
Information on mixed storage: KEEP SUBSTANCE AWAY FROM: oxidizing agents.
Storage area: Store away from heat. Store in a cool area. Store in a dry area. Store in a well-ventilated place. Keep locked up.
Special rules on packaging: Keep only in original container. meet the legal requirements.

SECTION 8: Exposure controls/personal protection

8.2. Exposure controls

Appropriate engineering controls: Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.

Personal protective equipment: Use appropriate personal protective equipment when risk assessment indicates this is necessary. Gloves. Protective clothing. Protective goggles. Safety glasses.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

- **Physical state**: Liquid
- **Appearance**: Clear, red colored liquid.
- **Odor**: Fuel oil odor
- **Odor threshold**: No data available
- **pH**: No data available
- **Melting point**: No data available
- **Freezing point**: No data available
- **Boiling point**: No data available
- **Flash point**: 145 °F
- **Relative evaporation rate (butyl acetate=1)**: No data available
- **Flammability (solid, gas)**: No data available
- **Explosion limits**: No data available
- **Explosive properties**: Heating may cause a fire or explosion.
- **Oxidizing properties**: No data available
- **Vapor pressure**: No data available
- **Relative density**: No data available
- **Relative vapor density at 20 °C**: No data available
Specific gravity / density : 0.875 g/ml
Solubility : Insoluble in water.
Log Pow : No data available
Log Kow : No data available
Auto-ignition temperature : No data available
Decomposition temperature : No data available
Viscosity : No data available
Viscosity, kinematic : < 20 cSt
Viscosity, dynamic : No data available
VOC content : > 90 %

SECTION 10: Stability and reactivity

10.1. Reactivity
On burning: release of toxic and corrosive gases/vapors (nitrous vapors, sulphur oxides, carbon monoxide - carbon dioxide). If the product is involved in a fire, it can release toxic chlorine gases. Reacts violently with (strong) oxidizers.

10.2. Chemical stability
Combustible liquid. Stable under normal conditions. Risk of explosion if heated under confinement. Heating may cause a fire or explosion.

10.3. Possibility of hazardous reactions
Refer to section 10.1 on Reactivity.

10.4. Conditions to avoid
Refer to Section 10 on Incompatible Materials. Open flame. Overheating. Sparks.

10.5. Incompatible materials
Oxidizing agents.

10.6. Hazardous decomposition products
Thermal decomposition produces: CO, CO₂, Oxides of nitrogen and other potentially toxic fumes.

SECTION 11: Toxicological information

11.1. Information on toxicological effects
Acute toxicity : Dermal: Harmful in contact with skin. Inhalation:dust,mist: Harmful if inhaled.

- **Symptoms/effects after skin contact**: Causes skin irritation.
- **Symptoms/effects after eye contact**: Causes serious eye irritation.
- **Symptoms/effects after ingestion**: May be fatal if swallowed and enters airways.
- **Likely routes of exposure**: Skin and eye contact; Ingestion; Inhalation

### SECTION 12: Ecological information

#### 12.1. Toxicity

**naphthalene (91-20-3)**

- EC50 Daphnia 1: 2.16 mg/l (EC50; 48 h; Daphnia magna)
- LC50 fish 2: 0.11 mg/l (LC50; 96 h; Oncorhynchus mykiss)
- Threshold limit algae 1: 0.4 mg/l (EC50; 72 h; Skeletonema costatum)

**Glycol Ether EB (111-76-2)**

- LC50 fish 1: 1474 mg/l Oncorhynchus mykiss
- EC50 Daphnia 1: 100 mg/l Water flea
- ErC50 (algae): 1840 mg/l Pseudokirchneriella subcapitata
- NOEC chronic fish: > 100 mg/l
- NOEC chronic crustacea: 100 mg/l daphnid

#### 12.2. Persistence and degradability

**naphthalene (91-20-3)**

- Biochemical oxygen demand (BOD): 0 g O₂/g substance
- Chemical oxygen demand (COD): 0.22 g O₂/g substance
- ThOD: 2.99 g O₂/g substance

#### 12.3. Bioaccumulative potential

**naphthalene (91-20-3)**

- BCF fish 1: 23 - 168 (BCF; 8 weeks; Cyprinus carpio)
- Log Pow: 3.3 (Experimental value)
- Bioaccumulative potential: Low potential for bioaccumulation (BCF < 500).

2-ethylhexyl 2,4-dichlorophenoxyacetate (1928-43-4)

- Log Pow: 5.78 (Experimental value)

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

- **Product/Packaging disposal recommendations**: Dispose of contents/container to comply with local/regional/national regulations.
- **Additional information**: Clean up even minor leaks or spills if possible without unnecessary risk. Handle empty containers with care because residual vapors are flammable.

### SECTION 14: Transport information

- **Department of Transportation (DOT)**
  - UN-No.(DOT): NA1993
Proper Shipping Name (DOT): Combustible liquid, n.o.s.
Class (DOT): 3 - Class 3 - Flammable and combustible liquid 49 CFR 173.120
Packing group (DOT): III - Minor Danger
DOT Packaging Non Bulk (49 CFR 173.xxx): 203
DOT Packaging Bulk (49 CFR 173.xxx): 241
DOT Symbols: D - Proper shipping name for domestic use only, or to and from Canada, G - Identifies PSN requiring a technical name

DOT Special Provisions (49 CFR 172.102): IB3,T1,T4,TP1
DOT Packaging Exceptions (49 CFR 173.xxx): 150
DOT Quantity Limitations Passenger aircraft/rail (49 CFR 173.27): 60 L
DOT Quantity Limitations Cargo aircraft only (49 CFR 175.75): 220 L
DOT Vessel Stowage Location: A

Additional information
Emergency Response Guide (ERG) Number: 128
Other information: When transported by ground in non-bulk containers, this product utilizes the exception found under 49 CFR 173.150.

ADR
No additional information available

Transport by sea
No additional information available

Air transport
No additional information available

SECTION 15: Regulatory information

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory

Chemical(s) subject to the reporting requirements of Section 313 or Title III of the Superfund Amendments and Reauthorization Act (SARA) of 1986 and 40 CFR Part 372.

- bromacil (CAS-No. 314-40-9) subject to reporting requirements of United States SARA Section 313
  - 0.1 - 1%
- naphthalene (CAS-No. 91-20-3) subject to reporting requirements of United States SARA Section 313

  - 0.083 - 0.831%

- bromacil (314-40-9)
- naphthalene (91-20-3)

CERCLA RQ 100 lb
Glycol Ether EB (111-76-2)

- 2-ethylhexyl 2,4-dichlorophenoxyacetate (1928-43-4)

Subject to reporting requirements of United States SARA Section 313

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets and workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

Caution: Harmful if swallowed. Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. California Proposition 65 - This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer, developmental and/or reproductive harm.
SECTION 16: Other information

Training advice: Normal use of this product shall imply use in accordance with the instructions on the packaging.

NFPA health hazard: 2 - Materials that, under emergency conditions, can cause temporary incapacitation or residual injury.

NFPA fire hazard: 2 - Materials that must be moderately heated or exposed to relatively high ambient temperatures before ignition can occur.

NFPA reactivity: 0 - Material that in themselves are normally stable, even under fire conditions.
