WARNING: This product can expose you to Formaldehyde, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

DISPOSAL
Offer empty container for recycling. If recycling is not available, discard container in trash. Do not flush wipes.

NFPA® RATINGS:
Health: 1; Flammability: 1; Reactivity: 0

CONTAINS/CAS NUMBER:
Water/7732-18-5; Sodium Bicarbonate/144-55-8; Butyl-3-hydroxybutyrate/53605-94-0; Tetrasodium Ethylenediamine Tetraacetate/64-02-8; Sodium Lauryl Sulfate/151-21-3

DESCRIPTION
These wipes combine powerful cleaning agents with waste-digesting bacterial-enzymes to produce a product that literally wipes away heavy soils and stains from carpet and upholstery. Within seconds after a wipe is applied to a stain, the cleaning agents and surfactants are already working to separate the soil from the fabric fibers. Once the stain is separated from the fibers, the bacteria go to work to digest any organic matter that may be present, as well as any odors that may accompany the stain. These wipes remove some of the toughest stains, including: wine, coffee, juice, oil, ketchup, blood, ink, pet accidents, vomit and more.

DIRECTIONS
Spot Removing: Blot stained spot with a wipe until the stain begins to disappear. Set-in stains may require additional blotting or rubbing.

Odor Elimination: Once stain is removed, place a fresh wipe over the affected area and moisten with water. Leave for 24 hours so the natural bacteria in the wipe can destroy the odor and eliminate unseen organic matter.

DIRECTIONS FOR DISPENSING
1. Remove lid by lifting upward. Remove foil seal.
2. Pull towel from center of the roll and thread through “X” on the underside of the lid.
4. Snap hinged cap back into place to ensure towels stay moist.
