SECTION 1: Product and company identification

Product name: Dust Mop Treatment
Use of the substance/mixture: Aerosol Cleaner
Product code: 8302
Company: Total Solutions
P.O. Box 240014
Milwaukee, WI 53224 - USA
T (414) 354-6417
Emergency number: Chemtec: (800) 424-9300

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification (GHS-US)
Flam. Aerosol 1 H222
Asp. Tox. 1 H304
Full text of H-phrases: see section 16

2.2. Label elements

GHS-US labeling
Hazard pictograms (GHS-US):

GHS02
GHS08

Signal word (GHS-US): Danger
Hazard statements (GHS-US):
Extremely flammable aerosol
May be fatal if swallowed and enters airways
Precautionary statements (GHS-US):
Keep away from heat, sparks, open flames, hot surfaces. - No smoking
Do not spray on an open flame or other ignition source
Pressurized container: Do not pierce or burn, even after use
If swallowed: Immediately call a POISON CENTER, a doctor, Do NOT induce vomiting
Do NOT induce vomiting
Store locked up
Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F
Dispose of contents/container to comply with local/regional/national/international regulations

2.3. Other hazards
No additional information available

2.4. Unknown acute toxicity (GHS-US)
Not applicable

SECTION 3: Composition/information on ingredients

3.1. Substance
Not applicable
Full text of H-phrases: see section 16

3.2. Mixture

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general: Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
First-aid measures after inhalation: Move the affected person away from the contaminated area and into the fresh air. Respiratory problems: consult a doctor/medical service.

First-aid measures after skin contact: Take off contaminated clothing. Rinse skin with water/shower. If skin irritation or rash occurs: Get medical advice/attention.

First-aid measures after eye contact: Rinse immediately with plenty of water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician immediately.

First-aid measures after ingestion: Rinse mouth. Call a poison center or a doctor if you feel unwell. Do not induce vomiting.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation: May be fatal if swallowed and enters airways.

Symptoms/injuries after skin contact: Repeated exposure may cause skin dryness or cracking.

Symptoms/injuries after eye contact: Direct contact with the eyes is likely irritating.

Symptoms/injuries after ingestion: May be fatal if swallowed and enters airways.

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically. Symptoms may be delayed.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Unsuitable extinguishing media: Do not use a water jet since it may cause the fire to spread.

5.2. Special hazards arising from the substance or mixture

Fire hazard: Under fire conditions closed containers may rupture or explode. Extremely flammable aerosol.

Explosion hazard: Contents under pressure. Pressurized container: may burst if heated.

Reactivity: The product is non-reactive under normal conditions of use, storage and transport. Upon combustion: CO and CO2 are formed.

5.3. Advice for firefighters

Firefighting instructions: Move containers away from the fire area if this can be done without risk. Use water spray or fog for cooling exposed containers. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Evacuate unnecessary personnel. Stay upwind/keep distance from source. Gas is denser than air. May accumulate in low areas e.g. close to the ground. Eliminate every possible source of ignition. Isolate from fire, if possible, without unnecessary risk.

6.1.1. For non-emergency personnel

Protective equipment: Do not enter without an appropriate protective equipment. DO NOT touch spilled material.

Emergency procedures: Ventilate the area thoroughly, especially low lying areas (basements, work pits etc.). Advice local authorities if considered necessary.

6.1.2. For emergency responders

No additional information available

6.2. Environmental precautions

Prevent runoff from entering drains, sewers or waterways. Avoid discharge to the environment.

6.3. Methods and material for containment and cleaning up

For containment: Eliminate every possible source of ignition. Keep combustibles (wood, paper, oil, etc.) away from spilled material. Stop leak if safe to do so. Move the cylinder to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Prevent the product from entering drains or confined areas. For further information refer to section 8 : Exposure-controls/personal protection™. Use water spray to disperse the vapors.

Methods for cleaning up: Take up liquid spill into absorbent material.

6.4. Reference to other sections

No additional information available

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Additional hazards when processed: Pressurized container: Do not pierce or burn, even after use.
Precautions for safe handling: Do not use if spray button is missing or defective. Do not spray on a naked flame or any incandescent material. Do not smoke while handling product. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Handling this product may result in electrostatic accumulation. Use proper grounding procedures. Do not re-use empty containers. Avoid breathing dust, fume, gas, mist, spray, vapors. Use only outdoors or in a well-ventilated area. Use personal protective equipment as required.

Hygiene measures: Use good personal hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures: Pressurized container. Do not puncture, incinerate or crush. Take precautionary measures against static discharge.

Storage conditions: Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Refrigerate.

Incompatible products: Strong oxidizing agents.

Incompatible materials: Heat sources. Sources of ignition.

Storage area: Aerosol 3.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

<table>
<thead>
<tr>

<td></td>
</tr>
</tbody>
</table>

8.2. Exposure controls

Personal protective equipment: Gloves. Protective clothing. Safety glasses. Use appropriate personal protective equipment when risk assessment indicates this is necessary.

Hand protection: Protective gloves.

Eye protection: Chemical goggles or safety glasses.

Skin and body protection: Wear suitable protective clothing.

Respiratory protection: If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an air-supplied respirator.

Thermal hazard protection: Use appropriate personal protective equipment when risk assessment indicates this is necessary.

Consumer exposure controls: When using do not smoke. Use good personal hygiene practices. Take off contaminated clothing and wash before reuse. Wash hands and other exposed areas with mild soap and water before eat, drink or smoke and when leaving work.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

</table>
Vapor pressure: No data available
Relative density: No data available
Relative vapor density at 20 °C: No data available
Specific gravity / density: 0.748 g/ml estimated
Solubility: Not determined.
Log Pow: No data available
Log Kow: No data available
Auto-ignition temperature: No data available
Decomposition temperature: No data available
Viscosity: No data available
Viscosity, kinematic: No data available
Viscosity, dynamic: No data available
VOC content: Not Determined

SECTION 10: Stability and reactivity

10.1. Reactivity
The product is non-reactive under normal conditions of use, storage and transport. Upon combustion: CO and CO2 are formed.

10.2. Chemical stability
Stable under normal conditions.

10.3. Possibility of hazardous reactions
Hazardous polymerization does not occur.

10.4. Conditions to avoid
Aerosol containers are unstable at temperatures above 49°C. Avoid temperatures exceeding the flash point.

10.5. Incompatible materials

10.6. Hazardous decomposition products
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity: Not classified

</table>

Reproductive toxicity: Not classified
Specific target organ toxicity (single exposure): Not classified
Specific target organ toxicity (repeated exposure): Not classified

Aspiration hazard: May be fatal if swallowed and enters airways.
Potential Adverse human health effects and symptoms: Dizziness. Direct contact with the eyes is likely irritating.
Symptoms/injuries after inhalation: No effects known.
Symptoms/injuries after skin contact: Repeated exposure may cause skin dryness or cracking.
**Dust Mop Treatment**

**Safety Data Sheet**

**Date of issue:** 9/16/2015  
**Revision date:** 05/25/2015  
**Version:** 1.0  
**PGHS SDS**  
**Page 5 of 6**

### Section 12: Ecological Information

**12.1. Toxicity**

<table>
<thead>
<tr>
<th>Substance (CAS)</th>
<th>LC50 fish 1</th>
<th>EC50 Daphnia 1</th>
<th>Threshold limit algae 1</th>
</tr>
</thead>
<tbody>

<td>&gt; 100 mg/l (Algae)</td>
</tr>
</tbody>
</table>

**12.2. Persistence and degradability**

- **White mineral oil (petroleum) (8042-47-5):**
  - Persistence and degradability: Not readily biodegradable in water. No (test)data on mobility of the substance available.

- **Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics (64742-47-8):**
  - Persistence and degradability: Readily biodegradable in water. Adsorbs into the soil.

**12.3. Bioaccumulative Potential**

- **White mineral oil (petroleum) (8042-47-5):**
  - Bioaccumulative potential: No bioaccumulation data available.

- **Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics (64742-47-8):**
  - Log Pow: 6 - 8.2
  - Bioaccumulative potential: High potential for bioaccumulation (Log Kow > 5).

### Section 13: Disposal Considerations

**13.1. Waste Treatment Methods**

- **Waste Treatment Methods:** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Dispose of contents/container to comply with local/regional/national/international regulations.

- **Waste Disposal Recommendations:** Dispose in a safe manner in accordance with local/national regulations.

- **Additional Information:** Empty containers should be taken for recycle, recovery or waste in accordance with local regulation. Handle empty containers with care because residual vapors are flammable. Handle unclean empty containers as full ones. Do not re-use empty containers.

### Section 14: Transport Information

**Department of Transportation (DOT)**

- **UN No.:** UN1950 Aerosols (flammable, (each not exceeding 1 L capacity)), 2.1
- **Proper Shipping Name:** Aerosols flammable, (each not exceeding 1 L capacity)
- **Transport Hazard Class(es):** 2.1 - Class 2.1 - Flammable gas 49 CFR 173.115
- **Hazard Labels:** 2.1 - Flammable gas

- **DOT Packaging Non Bulk (49 CFR 173.xxx):** None
- **DOT Packaging Bulk (49 CFR 173.xxx):** None
- **DOT Special Provisions (49 CFR 172.102):** N82
- **DOT Packaging Exceptions (49 CFR 173.xxx):** 306
- **DOT Quantity Limitations Passenger Aircraft/Rail (49 CFR 173.27):** 75 kg
DOT Quantity Limitations Cargo aircraft only (49 CFR 175.75) : 150 kg

DOT Vessel Stowage Location : A
DOT Vessel Stowage Other : 25 - Shade from radiant heat, 87 - Stow “separated from” Class 1 (explosives) except Division 14, 126 - Segregation same as for Class 9, miscellaneous hazardous materials

Additional information
Other information : This product may be eligible to be shipped as a Limited Quantity or Consumer Commodity ORM-D utilizing the exception found at 49 CFR 173.306.

ADR
No additional information available

Transport by sea
UN-No. (IMDG) : UN1950
Proper Shipping Name (IMDG) : Aerosols
Class (IMDG) : 2.1 - Flammable gases

Air transport
UN-No.(IATA) : UN1950
Proper Shipping Name (IATA) : Aerosols, flammable
Class (IATA) : 2.1 - Gases : Flammable

SECTION 15: Regulatory information

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory

This product or mixture does not contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

propane (74-98-6)
Not listed on SARA Section 313 (Specific toxic chemical listings)

California Proposition 65 - This product does not contain substances known to the state of California to cause cancer and/or reproductive toxicity.

SECTION 16: Other information

Training advice : Normal use of this product shall imply use in accordance with the instructions on the packaging.

Full text of H-phrases:

| Asp. Tox. 1 | Aspiration hazard Category 1 |
| Compressed gas | Gases under pressure Compressed gas |
| Flam. Aerosol 1 | Flammable aerosol Category 1 |
| Flam. Gas 1 | Flammable gases Category 1 |
| Flam. Liq. 4 | Flammable liquids Category 4 |
| H220 | Extremely flammable gas |
| H222 | Extremely flammable aerosol |
| H227 | Combustible liquid |
| H280 | Contains gas under pressure; may explode if heated |
| H304 | May be fatal if swallowed and enters airways |

NFPA health hazard : 2 - Intense or continued exposure could cause temporary incapacitation or possible residual injury unless prompt medical attention is given.

NFPA fire hazard : 4 - Will rapidly or completely vaporize at normal pressure and temperature, or is readily dispersed in air and will burn readily.

NFPA reactivity : 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.
