NET CONTENTS: One Gallon (128 fl. oz.)

Manufactured By: Total Solutions® • 1-800-743-6417
PO Box 240014 • Milwaukee, WI 53224 • athea.com

DESCRIPTION

This neutral-pH cleaner is designed for general purpose use on all washable surfaces. It will not harm painted, plastic, wood or upholstered surfaces and will not strip finishes or harm flooring materials. It may be used on virtually any surface, floors, glass, vinyl, cloth upholstery, bathroom and kitchen surfaces. Also great for handwashing of delicate fabrics, crystal and silverware.

DIRECTIONS

For cleaning of walls, bathroom surfaces, glass, appliances and kitchen surfaces, etc., dilute 1 part concentrate with 40-50 parts water (2 or 3 ounces per gallon). Grease or heavy soil may require up to 12 ounces per gallon. Apply to soil, then rinse with clean water.

For daily damp mopping of floors, use 1 ounce per gallon. No rinse is necessary at this dilution.

For handwashing of china, crystal and silver, use 1-2 ounces per gallon of hot water.

For handwashing of delicate fabrics, stockings and wool garments, use 2-4 ounces per gallon of cold or lukewarm water. Soak garment, agitating gently to remove soil. Lay garment flat on an absorbent surface to dry.

DISPOSAL

Offer empty container for recycling. If recycling is not available, discard container in trash.

Please Recycle.
