RP-7

Automotive Cleaner
Polish And Sealant

- TECHNOLOGICALLY ADVANCED ENVIRONMENTAL SHIELD
- DEEP CLEANING FORMULA SAFE FOR ALL VEHICLE FINISHES

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: One Gallon (128 fl. oz.)

Manufactured By: Total Solutions® • 1-800-743-6417
PO Box 240014 • Milwaukee, WI 53224 • athea.com

DESCRIPTION: This unique product is the most effective hand applied automotive cleaner developed to date. It combines the best features of a fast acting cleaner, a high gloss polish and a durable environmental sealer in an easy to use product. Carefully chosen cleaners quickly strip away pollutants and surface dirt while the natural solvent, d-Limonene, provides the strength to remove tar, gasoline spills and insect remains. A specially incorporated polish gently removes surface oxidation to produce a showroom luster. Yet this product is safe for chrome, aluminum, fiberglass and the clear coat finish of newer automobiles. Finally, a detergent-resistant, triple protection system binds to the finish to reduce the effect of weather while producing a long lasting brilliance.

Surfaces protected with this product are easier to clean, resist surface oxidation and corrosion and are immune to the damaging effect of salt deposits, harsh cleaners and environmental fallout (acid rain) much longer than comparable products.

DIRECTIONS

SHAKE WELL BEFORE USE. Clean and dry vehicle to be treated. Pour RP-7 onto a clean, damp cloth and apply to a section at a time, using firm circular, overlapping motion. Let dry to a haze, buff off with a clean, soft cloth.

NOTE: Additional coats add to the deep, glass-like luster. Do not use on flat black paint or black textured paints. Always check for colorfastness of decals before application.

DISPOSAL: Dispose of contents/container to comply with local/regional/national/international regulations.

Please Recycle.
