

CHELATED IRON

Product # 133

Cures and prevents iron deficiencies in the soil

This nourishing mineral supplement provides an easily absorbed form of iron required to prevent or cure iron chlorosis in turf, ornamental shrubs and trees. It is very versatile and can be applied or injected into the soil, or sprayed directly onto foliage.

Use On:

- Trees
- Turf
- Athletic fields
- Golf courses

Features and Benefits

- Reverses or reduces the pale green or yellow discoloration associated with chlorosis.
- Provides iron in a form that is immediately available to vegetation.
- Remains in the soil for extended feeding.
- Is compatible with tank mixes of most fertilizers, insecticides fungicides and penetrating aids.

Properties

Appearance.....	Brown Liquid
Fragrance	Pungent
Specific gravity.....	1.2 g/ml
pH	2.2-3.2
Pounds of iron per gallon ..	0.33 lb/gallon

Directions **Complete directions on product label**

Turf areas: Dilute 5-10 gallons with sufficient water to cover 1 acre. Small area may be foliar fed with 8 ounces with sufficient water to spray 1,000 sq ft.

Trees and Ornamental Shrubs: For root feeding, use 4 ounces per inch of trunk diameter. Dilute with 5-10 gallons of water and pour or inject the solution around the root zone and drip line.

Ingredients

Water	7732-18-5
Lignosulfonic Acid	8062-15-5
Ferrous Sulfate	7720-78-7
