

DIQUAT 4.35%

Product # 134

Aquatic and terrestrial weed killer concentrate

Aquatic and Terrestrial Weed Killer

- Interior plantscapes
- Lawns
- Pumping stations
- Manufacturing plants
- Driveways
- Patios
- Ornamental gardens
- Grounds
- Dividers and medians
- Transformer stations
- Storage yards
- Ponds*
- Parks
- Railroads
- Pipelines
- Electric utilities
- Fence lines
- Lakes*
- Golf courses
- Highways
- Public utility lines
- Commercial buildings
- Parkway
- Drainage ditches*

*Aquatic use where there is little or no outflow of water and which are totally under the control of the product's user.

Effective Against

- Broad leaf weeds
- Grasses
- Aquatic weeds

Features and Benefits

- Non-selective vegetation killer for control of broadleaf weeds, grasses and aquatic weeds
- Kills most forms of plant growth without damage to the soil
- Effects are visible in only a few days
- Deactivates on contact with soil

Properties

Appearance.....	Yellow Liquid
Fragrance	Mild
Specific gravity.....	1.01
pH	4.0 - 6.0

Authorizations: EPA registered product. Not available under the Total Solutions brand name. Registration required.

Directions Complete directions on product label

Terrestrial Application: Apply to young weeds since control decreases as weeds mature. Retreatment may be necessary to control grasses and established weeds. Dilute 2½ to 5 gallons plus 8-16 oz of a nonionic surfactant per 100 gallons of water. (6 2/3 oz plus teaspoon of nonionic surfactant to one gallon water). Apply for full coverage and thorough weed contact.

Submersed Aquatic Weeds: 10-20 gallons per surface acre. Apply by directly pouring from container into the water and moving over the water surface in a boat.

Floating Aquatic Weeds: 5-7 ½ gallons per surface acre. Dilute in 150 to 200 gallons of water plus 1 pint of nonionic surfactant and spray for the control of the weeds.

Duckweed: 10 gallons per acre. Dilute in 50 –150 gallons water. Cover all plants on water and on damp marginal areas.

Marginal Weeds (infesting the edges and other portions of ponds, lakes and ditches):10 gallons in 100 gallons of water, plus 1 pint of a nonionic surfactant and cover weeds thoroughly.

Algae: Apply 0.5-1.5 ppm.

Ingredients

	Amount
Diquat dibromide (6,7-dihydrodipyrido (1,2-a:2', 1'-c) pyrazinediium dibromide	4.35%
Inert Ingredients	95.65%

Contains 0.2 lbs. Diquat cation per gallons as 0.371 lbs. salt per gallon.

Safety
