FOOD SERVICE

MACHINE DISH DETERGENT

Heavy Duty Detergent
With 1% Chlorine

• LOW FOAM

• BIODEGRADABLE

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: One Gallon (128 fl. oz.)

Manufactured By: Total Solutions® • 1-800-743-6417
PO Box 240014 • Milwaukee, WI 53224 • athea.com

DESCRIPTION

This concentrated dish detergent is specially blended for institutional dish washing machines. It contains a powerful blend of cleaning agents to cut through heavy food build-up, dried-on deposits, grease and oil. 1% chlorine cleans tough protein soils and removes stubborn stains too. Special sequestering agents assure thorough cleaning of glass, porcelain, plastic, earthenware and metal even in hard water. This low pollution formula is phosphorous free and contains biodegradable surfactants.

DIRECTIONS

Rack dishes and pre-rinse. Use 1/2 to 1 ounce of detergent concentrate per gallon of water in the wash tank. Adjust the detergent feed pump to maintain proper detergent concentration. Wash water should be at least 140°F. Hard water may require additional detergent. Rinse with hot water (180°F or above). This detergent is not intended for hand dishwashing use.

DISPOSAL

Dispose of contents/container to comply with local/regional/national/international regulations.

Please Recycle.
