NET CONTENTS: One Gallon (128 fl. oz.)

Manufactured By: Total Solutions® • 1-800-743-6417
PO Box 240014 • Milwaukee, WI 53224 • athea.com

DESCRIPTION

This product eliminates tough soils from shower surfaces, including soap scum, hard water deposits, and stains. After a few weeks of use, heavy build-up is completely removed, and spraying showers daily actually prevents the build-up of grime and soap scum. It can be safely used on almost all surfaces including tile, porcelain, terrazzo, rubber, fiberglass, corian, glass doors, plastic curtains, grout, chrome, water fountains, and sinks.

DIRECTIONS

Thoroughly spray down shower surfaces. Normal build-up and other soils will begin to dissolve overnight. Heavy build-up may take 2-3 weeks. If streaks develop, simply rinse off and apply less. Once existing soils are dissolved, continue applying on a daily basis to prevent new build-up.

DISPOSAL

Dispose of contents/container to comply with local/regional/national/international regulations.

Please Recycle.

*For industrial and commercial use only.
