

DESCRIPTION

This non-ionic polymer flocculent is designed to settle suspended solids and all particulate matter from swimming pool water. When used in a program of complete pool care, it will help keep the water sparkling clear and inviting. Solids and debris will be settled to the pool bottom for easy removal by vacuuming. The use of this product also enhances efficiency of water filters.

DISPOSAL

Offer empty container for recycling. If recycling is not available, discard container in trash.

⚠️ WARNING: This product can expose you to acrylamide, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

*For industrial and commercial use only.
For additional information, see Safety Data Sheet.*

POOL CARE

POOL CLARIFIER

Swimming Pool Water Aid

- PRECIPITATES SUSPENDED SOLIDS FOR SPARKLING CLEAN AND CLEAR SWIMMING POOL WATER

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: One Gallon (128 fl. oz.)

Manufactured By: Total Solutions[®]
PO Box 240014 • Milwaukee, WI 53224 • 1-800-743-6417

DIRECTIONS

If the pool is cloudy from airborne dust or high water hardness, use up to 32 ounces of this flocculent per 10,000 gallons of pool water. Allow pool to remain undisturbed for at least one hour, then vacuum all debris that has settled.

For normal maintenance use, add 8 ounces of this flocculent per 10,000 gallons of pool water. Weekly treatment are most effective when made during times when the pool is not in use.
