

Silt & Sand Flush

Product # 380

Clears deposits from storm and sanitary sewers

T

This flushing aid is designed to break up and disperse all types of organic and inorganic deposits that cloud up and collect in storm and sanitary sewers. It separates mud, dirt, silt and sand from the water and makes it easier to flush the deposits out to keep piping, wells and basins clean and unobstructed.

Use On

- Wells
- Storm drains
- Basins
- Sewer drains

Features and Benefits

- A highly charged polymer dispersant designed to break up and disperse inorganic deposits that accumulate in sewers.
- Use with a regular cleaning and flushing program.
- Specially designed for mud, dirt, and silt.
