

Snow Plow Coating

Helps remove snow with less effort

Product # 385

This coating deposits a thin, slippery layer of silicone that reduces friction on plow blades, shovels and truck beds to provide more efficient plowing. It also protects metal surfaces from rust and corrosion and will not wash off when cleaned after use.

Use On

- Snow Plows
- Lawn Mowers
- Snowmobiles
- Trucks
- Shovels
- and many other surfaces
- Rakes
- Snow removal equipment
- Rollers
- Snow throwers

Effective Against

- Fuel Waste
- Rust
- Corrosion
- Wear & Tear on Equipment

Features and Benefits

- Protects against rust & corrosion
- Reduces friction for more efficient plowing
- Leaves a hard, slipper layer of silicone on plow blades

Properties

Appearance	Colorless liquid
Fragrance	Solvent Odor
Specific Gravity	0.787
Flash point	103 ° F
VOC	> 90%

Directions

Complete directions on product label

Spray, brush, swab or roll onto plow blades and other exposed metal and painted surfaces. Best results are obtained with coating is allowed to dry for 30 minutes. Protect equipment from rusting by applying several applications after using equipment and during summer storage.

Ingredients

Hydrotreated Light Alkanes
Silicone

CAS Number

64742-47-8
63148-62-9

Safety

Caution: Keep out of reach of children.
