

Rinse Aid

Product # 473

Eliminates water spotting on dishes

This concentrated rinse additive is designed for use in the rinse water of dishwashing operations. It reduces the surface tension of water to prevent water droplets from forming, allowing dishes, silverware and glasses to dry sparkling clean and spot-free. This formula contains special softening agents for superior performance in hard water.

Use in:

- Automatic dishwashers
- Hand dishwashing rinse water
- Hard water
- Soft water

Features and Benefits

- An additive used in dish washing rinse water.
- Superior performance in hard water.
