PO Box 240014 • Milwaukee, WI 53224 • athea.com

DESCRIPTION: If you have been searching for an alternative to chlorinated solvents, there is no need to search further. This product is a blend of natural and synthetic compounds that combine to produce a remarkably effective product. Carefully selected solvents combine to form a powerful yet safe solution to your most difficult cleaning and degreasing tasks.

This product is one of the few products that can remove the strongest deposits without sacrificing workers' safety. The light, fresh lime scent makes even the most tedious and unpleasant task more bearable.

DIRECTIONS

ADHESIVE REMOVER: This product was developed to safely remove decals, stickers, adhesives and their residues from a variety of surfaces. It works quickly on metal parts without causing corrosion under normal conditions. This product may harm some plastics and painted surfaces, be sure to test before using.

DIP TANK CLEANING: Dip parts to be cleaned into solvent. Allow to soak until grease and grime are loosened. Remove and allow to dry. To reduce drying time, use a compressed air gun. This product may harm some plastics and painted surfaces, be sure to test before using.

DISPOSAL: Dispose of contents/container to comply with local/regional/national/international regulations.

Please Recycle.
