Manufactured By: Total Solutions® • 1-800-743-6417  
PO Box 240014 • Milwaukee, WI 53224 • [athea.com](http://athea.com)

**DESCRIPTION**

This product contains a special blend of aerobic and anaerobic bacteria strains, chosen for their ability to digest and liquefy organic waste quickly, efficiently and without odors. The continuous use of this product drastically reduces plumbing maintenance costs and reduces pump-out frequency, making it the ideal grease trap maintainer.

It utilizes the latest biological technology to keep grease traps and drain lines free from clogs and foul odors while resisting chlorine, disinfectants and high water temperatures.

This product not only eliminates greasy accumulations, but also helps eliminate obnoxious odors at the molecular level while a pleasant fragrance keeps traps and plumbing lines smelling fresh.

**DIRECTIONS**

**For Restaurants Open 24 Hours**

- Drip, pour or pump this product directly into drains with Pail Pump Dispenser during low periods, usually once during the day after lunch and once at night between midnight and 6 A.M.
- See chart at right for daily dosage rates.

**For Restaurants Open For Lunch & Dinner Only**

- Drip, pour or pump this product directly into drains with Pail Pump Dispenser between midnight and 6 A.M.
- See chart at right for daily dosage rates.
