

Pellet Deicer

Product # 600

Maximum safety with minimum effort

These calcium chloride-based pellets generate exothermic heat to power through thick snow and ice accumulations. They work in temperatures as low as -25°F and prevent refreezing. Plus, they are non-corrosive to concrete and will not leave behind a residue or kill grass.

Use on:

- Sidewalks
- Ramps
- Brick
- Driveways
- Loading docks
- Concrete
- Stairs
- Parking lots
- Asphalt
- Bridges
- Tar
- Flagstone

Note: Not for Food Use

Features and Benefits

- Works immediately to melt ice, frost and snow
- Non-corrosive to concrete when used as directed.
- Effective in temperatures as low as -25°F
- Generates exothermic heat to power through thick deposits
- Prevents refreezing

Properties

Appearance.....	White pellets
Fragrance	None
Ready to Use.....	Yes
Specific gravity.....	2.2
Application.....	spread with scoop, shovel or mechanical spreading equipment.

Directions Complete directions on product label

For temperatures above 5°F, use ½ pound per square yard of ice. At 0°F, use 1-2 pounds. Spread evenly over surface.

When pellets have penetrated and cracked loose the ice layer, remove the melted slush. Spread sparingly and evenly.

Active Ingredients

	CAS Number
Calcium chloride.....	10043-52-4
Sodium chloride.....	7647-14-5
Potassium chloride.....	7447-40-7

Safety

Warning: Harmful if swallowed. Causes skin irritation. Causes eye irritation. Keep out of the reach of children.
