DIRECTIONS

Wiping down electronic equipment with these wipes protects devices from static electricity and prevents dust accumulation.

Pre-moistened with a special formula that neutralizes the effects of static electricity, these wipes prevent the loss of important data stored on computer equipment such as hard drives.

In addition, by eliminating static, less dust collects on surfaces to keep equipment, like LCD screens, cleaner for longer.

DIRECTIONS

Power down electronic equipment. Wipe surface and discard after use.

DIRECTIONS FOR DISPENSING

1. Remove lid by lifting upward. Remove foil seal.
2. Pull towel from center of the roll and thread through "X" on the underside of the lid.
3. Close lid. Pull towel at 90° angle.
4. Snap hinged cap back into place to ensure towels stay moist.

DISPOSAL

Dispose of contents/container to comply with local/regional/national regulations.
