

Metered Air Fresheners

Product # 8424-8439

Neutralizes unpleasant odors with Ordenone™

This line of metered air fresheners is formulated to neutralize unpleasant odors. Metered Air Fresheners can be used in conjunction with many automatic actuating aerosol dispensers that deliver fresh fragrance every 15 minutes. One canister is capable of constantly deodorizing an area for over 30 days. All active ingredients are released, making this the most effective technology for odor counteracting on the market today. Metered Air Fresheners' fine, dry mist is non-staining. The fragrance stays suspended in the air long after the offensive odor has been destroyed, creating a pleasant atmosphere.
