

d-LIMONENE & ALTERNATIVE DEGREASERS/ CLEANERS

THE POWER OF d-LIMONENE

d-Limonene is a more effective degreaser than petroleum distillates yet does not contain the hazards associated with butyl or harsh alkalis. It is biodegradable, non-toxic and considerably less harmful to humans than traditional solvents and degreasers. And the fresh, clean, natural scent of oranges is not only pleasant, it eliminates the need to add expensive perfumes.

- Versatile cleaner/degreaser
- Safe, effective and biodegradable
- Ideal substitute for hazardous solvents

THE POWER OF d-LIMONENE ALTERNATIVES

Powered by all natural dipentene, Athea's d-Limonene alternatives provide true replacements for a high-flash parts washer, a heavy-duty, emulsifiable degreaser, and a floating lift station degreaser without the price tag of traditional d-Limonene based products.

PRIVATE LABEL

With the ever-growing trend toward private label brands in both the consumer and commercial markets, **ATHEA**[®] is well-positioned to deliver on our customer's needs. Today, over 90% of products **ATHEA**[®] ships are private labeled. A complete turn-key approach of chemical formulation and production, wipe converting and manufacturing, low minimums, the highest-quality artwork, nearly unlimited packaging options, fast turnaround, and strict confidentiality make **ATHEA**[®] the market leader in this category. Products not private labeled ship under the Total Solutions[®] brand. For those customers entering a new product category unsure of potential volume, or not wishing to register certain products when required by the EPA or FDA, the Total Solutions[®] brand is an ideal solution.
