ENVIRO-TERRA™ RUSTCRETE

Safer-Acid Concrete Rust Remover

Enviro-Terra™ RustCrete is a true breakthrough cleaner. With a pH of less than 1, this concrete rust remover has the performance of an acid, yet it is safe and mild to skin like a liquid dish soap.

Removes rust stains from concrete to restore the surface to like-new. The thickened formulation enhances dwell time and performance, and works on new and old, light and heavy, stains. Also effective on rust stains on other surfaces, including metal, porcelain, fiberglass, and brick. Nonflammable and biodegradable. Ships DOT non hazardous.

Part of the Enviro-Terra™ family of safer acids.

PRODUCT FEATURES

- Removes rust stains, including old and heavy stains, from concrete
- Thickened formulation for better dwell
- pH is less than 1, but mild to skin
- Biodegradable, nonflammable
