LIQUID GREEN FIRE™

Ice Melt and Dust Control

Liquid Green Fire™ is the economical way to stay ahead of winter storms to ensure safe transit of pedestrian and vehicle traffic. When used as a pre-treatment, Liquid Green Fire™ will prevent the bonding of snow and ice to pavement and other surfaces which will make mechanical clearing much more efficient. With efficacy down to -60°F, Liquid Green Fire™ is also extremely effective at melting already present snow and ice on a multitude of surfaces.

This product may also be used in warmer weather to help control dust on gravel roads, construction sites, or other commonly dusty areas. By absorbing moisture from the air, it helps to keep dust down and productivity up.

PRODUCT FEATURES

- Fast and easy to use
- Improves performance of solid rock salt and sand when applied prior to their use
- Effective in temperatures of -60°F
- Use as pre-wetter before precipitation or after snow and ice has already accumulated
- Suppresses dust on gravel & dirt roads in the summer

APPLICATIONS

- Parking Lots
- Driveways
- Sidewalks
- Stairs
- Outdoor Conveyors
- Outdoor Elevators
- Construction Sites
- Bridges
- Gravel Roads
- Asphalt

PRODUCT SPECIFICATIONS

- Green liquid; no odor
- pH 9 - 10
- Product Size: Gallons, Pails and Drums
