SIEGE TBD

Ready to Use Disinfectant

Siege TBD is a ready to use Tuberculocidal broad spectrum hospital disinfectant and sanitizer. Clean and disinfect in one step using this non-corrosive formula. Siege TBD can be used on hard, non-porous surfaces. Using a naturally derived active ingredient, citric acid, Siege TBD is powerful enough to kill HIV-1, TB, and Staph, along with many other viruses, bacteria, and fungi. Siege TBD removes the following allergens: cockroach debris/matter/particles, dust mite debris/matter/particles, pet dander, pollen particles, grass. This disinfectant is an ideal RTU solution for your disinfecting and sanitizing needs.

PRODUCT FEATURES
